

FPO - THIS IS NOT A CONTRACT PROOF

Cyan Magenta Yellow Black
white flood

 Non-Print Area

IMPORTANT NOTE:

Do not be alarmed by the colors of the CD label mask. Due to the limitations of our color printing process, the colors may appear much darker and more saturated than they will actually be on your finished CD label. It is for checking design, accuracy and color only. Please refer to our general color scheme. The color samples shown are accurate samples of the ink color on your CD label. Also be aware that CD labels are printed at a much higher resolution than the rest of your print job, so they may show some loss of detail.
